DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 4/8/05 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 1-5 are rejected under 35 U.S.C. 102(a) as being anticipated by Koyama et al. US Patent Application Publication 2002/0123732. Koyama discloses a disposable diaper having a liquid permeable topsheet 2, a liquid impermeable backsheet 3, and liquid retentive absorbent members 4 and 6 comprising superabsorbent material (paragraph 0042) interposed between the topsheet and backsheet. The absorbent members 4 and 6 are disposed in series as shown in Figure 2-4. Elastic members 8, 81 are disposed on both sides of the series of absorbent members (Figures 2-5). The

elastic and absorbent members are arranged such that a gap is produced between adjacent absorbent members when the diaper is stretched flat (Figure 2) and any adjacent two of the absorbent members come into close contact with each other when the diaper is worn (Figures 3, 7, and 15). The article further comprises standing gathers 112 (Figure 18).
